

Atlas Copco

Oil-injected rotary screw compressors

G 2-7
G 7L-15
G 15L-22

The new G series

The latest-generation G series comes with Atlas Copco's powerful rotary screw element and an advanced electronic controller to go above and beyond the call of duty.

Built-in reliability

- Atlas Copco's patented rotary screw element allows for a 100% duty cycle.
- The complete unit is designed to operate at ambient temperatures of up to 46°C/115°F.

Easy installation

- Available in multiple configurations – including floor or tank mounted and with or without integrated dryer.
- Extremely small footprint and cooling air discharge from the top allow for placement against a wall or even in a corner.

The ideal small business compressor

Atlas Copco compressors are legendary for their reliability and efficiency. That is why our G series has long been the preferred air solution for small and medium sized businesses. The G 2-7, the G 7L-15, and the G 15L-22 simply check all the boxes:

- | | |
|-------------|------------|
| ✓ Quiet | ✓ Powerful |
| ✓ Efficient | ✓ Reliable |

Atlas Copco, premium quality since 1873

Atlas Copco was founded in 1873 and is based in Stockholm, Sweden. We have been a global leader in high-quality compressed air technology for more than a century and continue to raise the bar with innovative products.

Advanced monitoring

The BASE controller offers advanced monitoring and control:

- Icon-based display, pressure settings, temperature reading.
- Running hours/hours working @ load.
- Service warnings.
- Outlet pressure setting directly on the controller.
- Pressure and element outlet temperature reading.

Robust and efficient compression element

Atlas Copco's trusted rotary screw element offers high free air delivery and supreme reliability.

Zero hassle, zero worries compressors

High reliability

- 100% continuous duty cycle.
- Up to 46°C/115°F ambient temperatures.

Low maintenance

- Easy access for maintenance.
- Quality components
- Long service interval of 4000 hours.

Silent operation

- Belt-driven element.
- Reduced noise levels and low vibration.

Full Feature (FF)

- Integrated refrigerant air dryer.
- In-line DD/PD* air filters (*PD not for G 2-7).

Environmentally friendly

- Reduced energy consumption.
- Low CO₂ emissions.

ATLAS COPCO
G SERIES
—
A TRUSTED
PARTNER

G 15L-22 The robust, economical compressor

- Reliable performance with a 100% continuous duty cycle in up to 46°C/115°F ambient temperatures.
- Extremely small footprint with possible placement against a wall or in a corner. Available in multiple configurations.

G 7L-15 Industry-leading performance

- Thanks to load/no load control, the compressor controller switches automatically to the optimum control mode for high, low and intermittent air consumption.
- Best-in-class performance, total reliability and low power consumption.

G 2-7 Compact and efficient

- Compared to piston compressors, the G 2-7 is quieter, cleaner, and more economical to own, while working longer hours.
- The high-efficiency IE3 motor allows for 24/7 operation, even in temperatures up to 46°C.
- The state-of-the-art rotary screw element minimizes energy use and operational costs.
- Thanks to the low-vibration belt system, the G 2-7 is extremely quiet.

Quality air performance

Full Feature with built-in dryer

The Full Feature version comes with a built-in refrigerant air dryer. It cools the compressed air and removes any moisture before it can enter your compressed air network. This prevents rust in your compressed air piping and avoids damage to your air tools.

G 2-7 FF

- Intake air

Air/oil mixture
- Oil

Wet air

Air Flow

- 1 Inlet air filter
- 2 Inlet valve
- 3 Compression element
- 4 Oil separator element
- 5 Minimum pressure valve
- 6 Aftercooler
- 7 Air receiver

Oil Flow

- 8 Oil reservoir
- 9 Oil cooler
- 10 Thermostatic valve block
- 11 Oil filter

A choice of filters

To ensure your compressed air meets the quality air needs of a wide range of applications, different grade DD/PD* air filters can be selected. (*PD not for G 2-7)

G 7L-15 FF/G 15L-22 FF

- Dry air

Water
- Refrigerant gas

Refrigerant liquid

Refrigerant Flow

- 12 Evaporator
- 13 Refrigerant compressor
- 14 Condenser
- 15 Capillary tube
- 16 Water separator
- 17 Electronic automatic drain

Options

- A Full Feature
- B DD/PD* high-efficiency air filter (*PD not for G 2-7)
- C Electronic receiver drain

* Tank-mounted variant.

** Floor-mounted variant.

Standard air receiver size, G 2-7: 200 l/60 gal, G 7L-15: 270 l/80 gal.

Unit performance measured according to ISO 1217, latest edition.

Mean noise level (pack variant) measured according to Pneurop/Cagi PN8NTC2 test code; tolerance 3 dB(A).
